

John Butler: Director for Verizon. Spoke on the reasons to vote for Verizon's agreement. Councilman Seminara wanted to hear Mr. Butler agree to all the commitments that Scott Parr agreed to. Mr. Butler concurred.

Gabriella Stormo: Verizon employee. Thanked Town negotiators on the negotiations between Verizon and Cablevision. Highlighted agreement provisions and fees of Verizon.

Scott Parr: Verizon employee. Asked if there were any questions from the Board and audience. Councilman Seminara asked questions about the broadcasting of the Meetings. Verizon does not provide any equipment; they provide a cash grant for the implementation of equipment. Will there be common right of ways with other franchises. Wants to know if there will be compatible and courteous communications with other franchises. Councilman Cifone asked if the Verizon people could provide help with equipment that may be under the stipend to purchase the equipment. Scott Parr agreed to that.

Roger Connor spoke again in defense of Cablevision. There is a need for an upgrade of equipment when there is a three way split at the expense of the Town of about \$1100 for a filter and amplifier.

Doreen Tignanelli: (inaudible) She wanted to make sure the Channel 22 will have no difficulties in providing the Planning Board, Town Board and Zoning Board meetings. Will that be handled right away with no interruptions in the telecasts?

Howard Cohen: Resident of Town of Wappinger. "Town of Wappinger put in files last spring, about April and I got files in June and the files are very good. However, Verizon files do not offer MS NBC as a Channel and the way it was explained to me, if the incumbent provider is Cablevision, they have an exclusive on MS NBC. I've contacted Mr. Sidenberg's office", he is the CEO of Verizon. They told him the issue would be resolved before the election. Here we are in February, it is still not resolved and when I googled this, and it says that the exclusive with Cablevision is until 2011. "If you're negotiating contracts with Verizon, I would think you might want to address this issue. In my mind, this is a monetary issue and Verizon has to buy from Cablevision a right to use the Cablevision exclusivity and they haven't. Were you aware of that issue?"

Councilman Seminara stated it was his understanding that they can't regulate content on Cablevision providers and Verizon. Councilman Seminara said that the residents may have to watch FOX for a few weeks. Mr. Sidenberg said, "Or a few years."

Supervisor Myers: The Town has absolutely no say over what Channels any video distributor carries. We can't do anything about adding, taking off or changing channels. That is not within our purview at all. If you switch over, you had better check that before you do it.

Pam Richardson Cablevision: "Regarding the administration of the head channels. They said they would comply with State Law and the State Law says that it is an obligation of the Cable provider unless the Town affirmatively agrees to take on the obligation. The contract, as written, affirmatively puts that obligation on the Town. That is Section 5.5. If the intension is not to put it back on the Town, then it is a provision I think the Town may want to consider in the negotiation."

Scott Parr, Verizon: "This is an argument that Cablevision has raised in each of the neighboring communities. Especially, in the Town of Fishkill, suggesting that the wording of Verizon's contract could somehow be twisted, torn and construed to suggest that it meant the Town was taking on the obligations that would require investment in a studio or production facility or the capabilities of having residents come to the Town, provide programming, do programming, produce programming and then offer it through a channel in which the Town administers and manages uniquely and independently. Under the Cable law, the Town always has the right to do that. But, our contract says, if you do that, there are some obligations that go with that. Because, while Verizon

administers the public access channel as a matter of requirement under State Law and while we have provided the Town with the rules and guidelines that we use to do that, which do not obligate the Town in any way or do not involve the Town as a middle person or administrative party to it, if you decide to take it back, you have the right of the law to do so, and if you do that, there are obviously some obligations that go with that. To read the provision in Verizon's contract differently, than some 150 communities before you have read it, and to suggest that it is not appropriately defined in those responsibilities, I think is really a sad effort to create a reason to delay tonight. I certainly hope you will see through it."

Chris Haraghty: He states that he wants a choice. He wants to decide. He hopes the Town will vote for that.

Antonella Santagate: She also states that she wants a choice. "She wants to be able to say, if you can't fix it, hit the road Jack, I'm going next door."

Motion made to resume the rules: Supervisor Myers/M. Cifone

CARRIED: 6-0

Town Attorney Mahar: Before reading the Resolution, I would like just to advise the public that even if this resolution is adopted tonight, Cablevision will not be available until the Verizon is processed through the Public Service Commission for final approval.

Supervisor Myers: Right, don't go ringing the phone off the hook tomorrow morning, I think it will be about a month, I guess. March 12th was advised by the Verizon people. So, you won't get it until after March 12th.

Councilman Tancredi thanked Cablevision for the job they had done and wanted to stress to them that the public basically wanted the element of choice.

Councilman Seminara stated that the Board always felt that competition was better for the residents and the Council always wanted a level playing field and don't want to favor one or the other and want the residents to choose.

02:04-01 PUBLIC HEARING

Initial Franchise Agreement For
Cable Television Service with
Verizon New York, Inc.

RESOLUTION

BE IT RESOLVED, that the Town Board of the Town of Poughkeepsie, pursuant to a public hearing held on February 4, 2009 at 7:00 PM at the Town Hall, Town of Poughkeepsie, One Overocker Road, Poughkeepsie, NY in regard to the application of Verizon for a Franchise Agreement, does hereby approve said Franchise Agreement and does authorize and direct the Supervisor to sign the same on behalf of the Town of Poughkeepsie.

SO MOVED: J. Baisley/T. Tancredi

ROLL CALL: Ayes: Councilmen Baisley, Seminara, Cone, Cifone, Tancredi, and
Supervisor Myers

Nays: None

CARRIED: 6-0

Scott Parr thanked the Town for the opportunity to serve the Town and their residents.

FRANCHISE AGREEMENT ATTACHED TO FINAL BOOK COPY

Motion made to suspend the rules for public speaking on agenda items: Supervisor Myers/M. Cifone

CARRIED: 6-0

Doreen Tignanelli had a question about #10 and the \$4,000 to Tom McNamara. What was the hourly rate.

Supervisor Myers: I don't think he is done with all the work yet, but he has spent several days going over several pieces of equipment and evaluations of them after figuring out what would best work here including sound system.

Town Attorney Mahar: When we were negotiating the PEG Grant cash contribution from Verizon and while we are still negotiating with Time Warner, we were obligated to provide a community need study. We had to show some justification as to why we were asking for this money, so that's why we paid Mr. McNamara to come in and he gave us a report which we used with Verizon and which we just had given to Time Warner as we go on with negotiations. Time Warner has asked for more specificity and we felt we were obligated to do so and asked Mr. McNamara to do it and this is the point where he has to charge us.

Doreen Tignanelli: Ok, where is the Lakeview Plaza Business Park?

Supervisor Myers: The Senior Citizen housing across from Morgan Lake.

Doreen Tignanelli: The amounts for #2 and #3 to be paid to Morris Associates, I assume you ---

Supervisor Myers: (inaudible)

Doreen Tignanelli: Ok, SC 1, are you going to go over any changes and be discussed?

Councilman Tancredi: Since Councilman Krakower is not here tonight and this is in his Ward, could we Table this until the Third Meeting of the month if it is not urgent that we do it tonight?

Neil Wilson: The Special Consent item is a resolution that will authorize the Department to prepare a draft of a supplemental GEIS that would examine the potential impacts related to the Zoning Amendments that we have been discussing with Ginsberg as part of the settlement discussions. We had distributed drafts of those amendments to the Board back in December and we really haven't spent a lot of time going through them. There is an urgency from the Ginsberg side of the table as they would like to see this part of the process move forward. There are several legs of the process to go. The rezoning is one of the critical legs. This is just an authorization to the Department to prepare the supplemental GEIS.

Councilman Seminara: So, we would be authorizing Neil to go out and do some work, but not really specifically approving any specific works and so I think there would be some time for Stephan to get back.

Neil Wilson: It's just a simple resolution for the Department to get back to this Board with a schedule under which we propose to operate. Also, a scoping document that we would go over with the Board which would also have to include an examination of alternatives, as we did for the original rezoning effort. This is just an authorization to go forward.

Contract With Lochner Engineering,
P.C. To Review Road Designs For
Hornbeck Road & Sharon Drive

RESOLUTION

BE IT RESOLVED, that the Town Board of the Town of Poughkeepsie does hereby authorize and direct the Supervisor to enter into a contract with Lochner Engineering, P.C. pursuant to the recommendation of the Town Engineer for the review

of the Town's road designs for Hornbeck Road and Sharon Drive as required by the grant application; and

BE IT FURTHER RESOLVED, that the cost for the Town for each agreement will be \$21,500.00; and

BE IT FURTHER RESOLVED, that the monies are to come from the respective Ward's share of the current road bond.

SO MOVED: J. Conte/J. Baisley

Councilman Seminara: Jim, is that sufficient to make sure we get that done right? I will have more to say about this later.

Councilman Conte: I have no problem with this going forward, but I would like to be kept up on it.

Jim Wojtowicz, Comptroller: This basically comes out of our road bond, the capital project, H23. Based on recommendations from the Infrastructure Committee, we are breaking this out by Wards and by streets and so we are trying to keep track of itemizing what the expenses go to.

Councilman Conte: I just want to be part of that process.

Councilman Seminara: There was some Federal Grant money that was promised for us a long time ago. It takes a little time for these things to work their way through, but to get this, we have to put (inaudible) through these initial fees to get the grant money.

Supervisor Myers: 2004. We have to jump through way too many hoops to get these moneys.

Neil Wilson, Development Director: The particular contract with Lochner is for preparation of certain documents because these funds are coming in from the Federal Government and there are certain requirements as to how the documents are prepared, what they consist of including a NEPA Review. (National Environmental Policy Act) so it is much like our SEQRA. Lochner is basically for those services as well as preparing certain parts of the other documents which Morris Associates did not feel they had the staff expertise to prepare them.

Jim Wojtowicz: And when that grant money comes back it will replenish the money expended out of the Capital Fund.

Councilman Seminara: I don't think this particular expense is not reimbursed below, right? There is a piece we have to pay for and they don't reimburse.

Town Attorney Mahar: That's correct.

Councilman Seminara: With each contemplation of grant money, whether Federal or State, I've come to the conclusion it's wrong for yet another reason. I really do not frankly believe in grants any more. The State is spending more money and totally out of budget and yet they are giving away money and the Federal Government is in the same position. The debt is increasing all the time and yet they are giving away money. Some things should be in grants, medical & scientific research, but some time across the line where it gets into pork and it's irresponsible to do this and I don't think we ought to partake of it because we aid in the irresponsibility of it.

02:04-14 AUTHORIZE Contract Proposal Between Town &
SUPERVISOR Susan Roeller Brown to Provide
TO SIGN Grant Writing Services Through
12/31/09

RESOLUTION

BE IT RESOLVED, that the Town Board of the Town of Poughkeepsie does hereby authorize the Supervisor to execute a Contract Proposal between the Town of Poughkeepsie and Susan Roeller Brown to provide grant writing services, which contract will be in effect from January 1, 2009 through December 31, 2009, a copy of which is attached hereto.

SO MOVED: T. Tancredi/M. Cifone

Councilman Cifone praised Susan Roeller Brown as being the best thing that happened for the Town. Mostly every grant she wrote was approved.

Councilman Seminara agreed that Susan was very professional and met every request and was successful, but as pointed out before, he feels the State and Federal Governments have overspent their budgets long ago and everyone is getting into too much debt. We are saddling our children and grand children with these debts we are occurring.

Councilman Tancredi agreed to a certain extent with Dominic, but I differ from Dominic's position in that they didn't give us anything we didn't have to pay, we paid in and we should get something back for it and "If we don't get it, someone else will."

To Amend Chapter 98, Entitled
“Zoning”

NOTED BY TOWN BOARD

Motion made to suspend the rules for public speaking: Supervisor Myers/M. Cifone

CARRIED: 6-0

J. Sevino: The extension of Ireland Drive in which they live is owned by Page and there are several problems. They have no snow or ice removal, no roof removal, bad potholes, Mail is never delivered. UPS has trouble delivering and have left packages for them up the hill in front of a neighbor's garage on the ground, they never see a policeman on the street or patrol. He is appealing to the Board for something to be done with the situation. Page does nothing and they need help. There are 2 house on that section of Ireland Drive, his and one owned by Page. Commercial trucks of Pages go through there. They go through there but the mail truck can't go through.

Councilman Conte: That road is plowed. He uses that road and the road is plowed well. They have repaired those roads in the spring. It wasn't a very good job, however. He's glad you brought it to his attention.

Councilman Cifone: Most people who live on a private road have a maintenance agreement and you pay to have services done and snow removal. Did you contact the other residents to get some kind of a maintenance agreement?

J. Sevino: There are only two people.

Town Attorney Mahar said that the owners would be liable for any accidents happening there due to poor maintenance of the streets in the winter season. He said, “That's an excellent bargaining tool.”

Supervisor Myers: Maybe we can speak to them about that. We will see if there is anything we can think of to be of assistance to you.

Nancy Kverev was wondering if the recreation plans have been done.

Councilman Cifone stated that they are still working on them. He said they are isolating a few things right now as far as the kind of activities that we would be doing and what kind of repairs to the parks they would be doing. But they are getting closer.

Nancy Kverev was still asking for the Police and CSEA contracts.

Supervisor Myers: Police was in December and should be up soon and CSEA has not come through yet.

Nancy Kverev also commended Councilman Seminara on his comments about the grants. She agreed with him.

Doreen Tignanelli asked about a presentation by Jeffery Schreck at the COW Meeting of October 15th, and wanted to know if anything has happened from that.

Supervisor Myers said they were going to bring him back because they have not heard from the other outfit and so that is the best deal in town. Also she asked about the woman that came in with Homestead vs. non-homestead parcels and wanted to know if those issues were ever resolved. Was the person on the Board who was involved, was anything ever done about that?

Supervisor Myers: Yes, the corrections were all made. As far as the person on the Board, nothing has been done in that regard that she knew of.

Councilman Seminara stated it's been in the back of his mind and some others and they may discuss it but nothing now he was prepared to speak about now.

Doreen Tignanelli spoke regarding the Spackenkill School District vote coming up and for three weeks there have been signs up on about five telephone poles and she would like to see the signs on the telephone poles removed. She also spoke about bus stops without bus shelters. Particularly near the Locust Grove and Poughkeepsie Cemetery and the people were standing on the lane on Route 9 and the sidewalks were not cleared of snow and some people had to stand on the snow bank also. That's dangerous altogether.

It was decided there was no sidewalks there even though it was a designated bus stop. So there was nothing the Town could do.

Supervisor Myers: There has been a new committee formed regarding the Loop bus routes, etc., maybe we can contact them about it.

Doreen Tignanelli spoke lastly about flooding, tree removal, Wappingers Creek and she said the Dutchess County Airport is planning on removing anywhere from 64 to 91 acres of trees at the Airport along the Wappingers Creek and in the wetlands and wetland buffers because it is obstructing runway vision. They have been talking about this since 1991 so now they are going to act on it. There is a resolution in front of the legislature and they are going to vote on it. I don't know what is going to happen when you remove anywhere from 64 to 91 acres of trees. Maybe someone from the Town should talk to a legislator about this.
