

Note from Felicia Salvatore Poughkeepsie Town Clerk:

All "Town of Poughkeepsie" residents starting last month in April, should have received the first part mailing of our 1st Dog Enumeration in over 50 years, a **blue card**. This is basically the same as a census but for dogs. This has not been done in many, many years and Clerk Salvatore states that many people were not aware of the law to license your dog as stated in Article 7 of the NYS Ags and Markets Law- The company that Clerk Salvatore used to do the Dog Enumeration has sent out a **second** notice, which is a **yellow card**. If you have replied with your blue card you may **disregard** this second notice. If you have not sent in a blue card please reply with one card or the other. By returning the card it helps to complete the enormous task of doing an enumeration.

- Please take note that the company Canine License Registry works by mailing routes so a few residents such as in the New Hamburg area and a few places that border other towns in which most of the route was in the other town may have been missed but still by law should come in and license any pups that may reside in their home. A few may have been mailed to those not residing in the Town and these folks should contact their Town Hall or City Hall on information about the license fees in their town as it is a State Law.
- Clerk Salvatore would also like to let the residents know that she is aware that it may be difficult to get an appointment by the date of May 18, so **she is extending that date out to June 8, 2018** which will give residents 3 more weeks to get all their needed paperwork.
- If you have any other Questions on the Dog Enumeration please feel free to call Felicia at 845-485-3620
