Hello!

I read your article in the Journal about Hudson Heritage projects. I am from Brooklyn, came up in the early 1960's and always loved all the history attached to the Hudson Valley. I am a big supporter of Savings and re-furbishing all the historical buildings in and around the Hudson Valley. I like the ideas that particular developer has on the Physic Center on Route 9, especially the part where he plans to work in the salvaging of the "Mans" building and just tying it into his ideas. I absolutely love that

piece of property!

Good Luck!

Sincerely

Rose Mary Libretti
