**Subject:** MacDonell Heights Town Center Project

To Whom It May Concern,

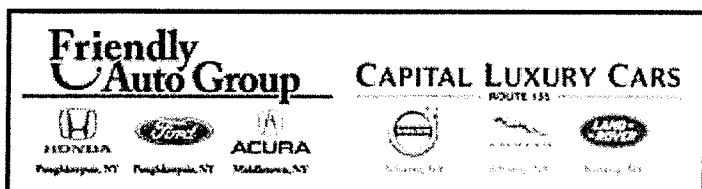

I would like to express my support of the Eastdale Village project. I believe this project will produce great benefit to people living and working in the area, as well as draw new people and spending to the area. The project appears to be well designed with attractive residential units, many acres of parkland, and an exciting commercial center with services that people will use and enjoy. Furthermore, the large creation of jobs and the increase in property taxes generated will have a significant economic benefit for Poughkeepsie/Arlington.

I have known Joe Kirchhoff for a number of years and my experience with him has been excellent. Additionally, from my knowledge, he has a strong track record developing numerous successful projects in the region. I am confident that he and his company would do a quality job on this one as well.

As a local business owner with major investments in the market, for the all reasons mentioned above, I enthusiastically support the project.

Sincerely,

Eric S. Kahn  
President
